August 29, 2017

Homework

- Students will have **reading homework** each night. I expect third graders to read at least 15 to 20 minutes each evening.
- Your child will also have **math homework** Monday through Thursday nights. Most days they will be provided a few minutes in class to work on their assignments. Even though they may be finished, their homework will be coming home in their homework folder so that you can check it over before they turn it in the following day.
- **Math Student Resource** books are coming home with your child's Tuesday Folder. Please keep them at home. These books can help when you can't figure out what "Property" or term our GoMath series is referring to.

Geography Test

This Friday, Sept. 1st your child will be taking a geography test over the world's oceans and continents. I have enclosed a practice paper in today's Tuesday Folder. They will be expected to label the correct name of each ocean, continent, hemisphere, equator, and label the compass rose. Spelling and capitalization counts. (The correct spelling will be provided, although they will have to copy it correctly to earn full credit.)

Important Dates

Sept. 1 – Geography Test

Sept. 4 – Labor Day – No School

Reminders

- PE shoes on PE days
- Volunteer forms must be filled out each year. See Mrs. Vasquez in the office.
